

Third European Quality of Life Survey

Questionnaire

Information note

This is the final master questionnaire (approved on 9 September 2011) of the third European Quality of Life Survey (3EQLS) which took place in 2011–2012. The questionnaire was translated into 25 languages (31 unique language versions) across the 27 EU countries, and seven languages (9 language versions) in seven non-EU countries.

The interviewer instructions and routing/scripting instructions are written in CAPITAL letters. In addition to this questionnaire, a glossary is available.

This document also contains information about whether the questions were used in previous waves of the EQLS: the year(s) is indicated above each question. In the questionnaire for the 3EQLS, about half of the items (91) have been used in previous waves of the survey, representing a three-year trend (54 items) or a two-year trend (37 items). This data does not include the household grid.

The standard conditions for use of Eurofound's research, including the 3EQLS questionnaire, are as follows:

1. The original source of the data must be acknowledged in any publication/ disseminated materials in which it appears.
2. A copy of such published/disseminated material(s) (or URL reference in the case of online usage) must be provided for Eurofound's files and sent to Sophia MacGoris (smg@eurofound.europa.eu) at the European Foundation for the Improvement of Living and Working Conditions, Wyattville Road, Loughlinstown, Co. Dublin, Ireland.

INTRODUCTION

INTERVIEWER: I am conducting a study commissioned by Eurofound (the European Foundation for the Improvement of Living and Working Conditions). As I mentioned, this is a European survey that is being carried out in each EU Member State and neighbouring countries. The aim is to explore how people feel about their quality of life. The results will be used to help to improve living conditions for everyone living in Europe. The current survey is the third wave of a series, so the results will show how living conditions have changed in [COUNTRY] and in Europe over the last eight years. Do you currently have time to answer my questions? The survey takes about 40-45 minutes to complete. Your answers will remain anonymous and participation is voluntary. You can refuse to answer a question at any stage or terminate the interview completely. Eurofound is a publicly funded European Union agency based in Ireland specialised in research on working and living conditions in Europe.
